Dear Mr. Butler:

RE: Western Camp Services Performance

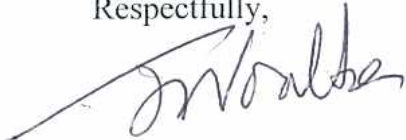

I would like to take this opportunity on behalf of Total E & P Canada to express our appreciation for the high quality service provided to our employees by the Western Camp Services team.

Western Camp Services have gone above and beyond in your duties and it has not gone unnoticed. As we are all aware, high quality camp services which include not only the housing but the food, is important in the support of the care and morale of our employees. Western has risen to the challenge each year during our drilling campaign, addressing issues immediately, providing top quality food, clean accommodations and first rate staffing which ensured our employees felt like they were in a home away from home.

As we have come to know Bill Butlers' willingness to work with our organization through any issue, particularly during the recent economic downturn, ensured cost cuts did not mean service cuts.

Your professionalism and concern for your clients sets your organization apart from others in industry and it has been and will be in the future, our pleasure to do business with your company.

Respectfully,

John Foulkes
Vice President
Operations
Total E & P Canada Ltd.
